3. Create at least three different visualizations (e.g., bar chart, line chart, map, pie chart, scatter plot, etc.).

Columns	CNT(Category)
Rows	Sales

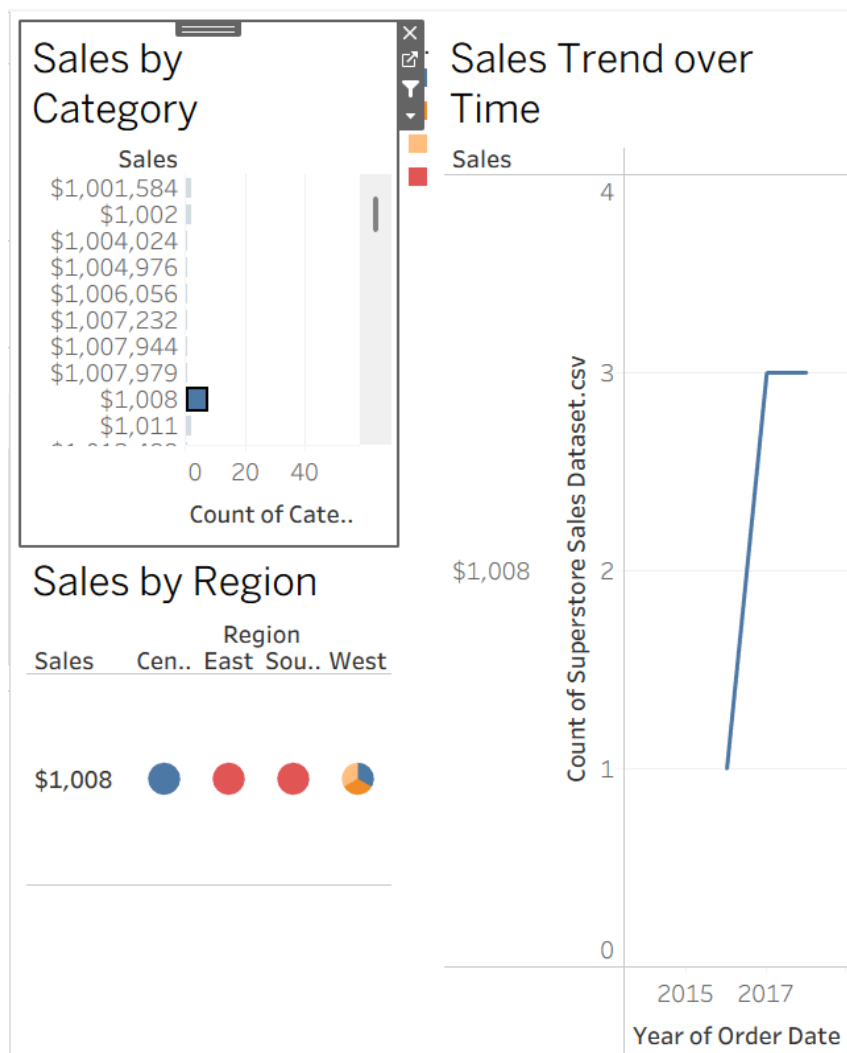

4. Add at least one filter or interactive element to the dashboard.

5. Arrange the charts into a single interactive dashboard with a clear title.

6. Write 3–5 observations explaining the insights gained from your dashboard.

Is dashboard mein Superstore dataset use kiya gaya hai jisme Sales, Category, Region aur Segment ka data hai. Observations se pata chalta hai ki Technology category ke sales sabse zyada hain, jabki Furniture sabse kam contribute karta hai. Regional analysis dikhata hai ki West region top performer hai aur Central region weakest hai. Sales trend 2015 se 2017 tak steady growth show karta hai, jo business expansion aur positive performance ko highlight karta hai. Overall, dashboard se clear hota hai ki Technology aur West region dominate karte hain, aur Furniture aur Central region mein improvement ki zarurat hai.
